Echolalia: Learning Language Through Scripts

Module 8 (Part 2) – Let's Model When You Hear Echolalia

1

1

Putting it into Practice:
Keep Your Own Child in Mind!

Grandview K4r 2

2

Modeling When You Hear Echolalia

- Model language that the child could copy and immediately use successfully – language that fits the moment.
- Questions are generally not appropriate (comment instead!)
 - Don't test!
 - If you do ask a question, also model the response

3

Modeling When You Hear Echolalia

- Model language that the child could copy and immediately use successfully – language that fits the moment.
 - Avoid using "say..."
 - Avoid demands for a response

4

Modeling When You Hear Echolalia

- Model language that the child could copy and immediately use successfully – language that fits the moment.
- Model pronouns from the child's perspective
 - First person perspective (e.g., I'm...)
 - Joint or Neutral perspective (e.g., Let's..., It's..., That's...)

5

Let's practice!

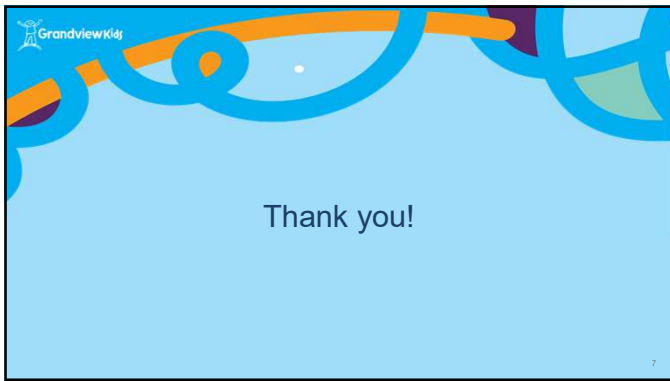

Skye is using chunks of language (scripts).

Skye loves numbers and letters.

What could we model?
