Name recognition and printing

These activities all start with upper case letters. This was done intentionally as upper-case letters are the best place to start. Providing or removing a model to copy, and moving to lower-case changes the level of difficulty.

Using Lego or other blocks with letters on them, match the letters of their name by stacking Lego in the correct order.

Create a puzzle out of popsicle sticks to practice putting the letters in order.

Place popsicle sticks in the correct slot to Make their names. This could also be done with clothes pegs.

Use a wide variety of materials to make their names or match them.

Lace letters or beads in order.
